Chapter 1. Getting started with the DirectEnglish application

Start learning with confidence using DirectEnglish, an application designed to make English learning simple, accessible, and engaging.

Welcome to DirectEnglish

Whether you are a beginner building your very first sentences or a confident speaker polishing your professional edge, DirectEnglish meets you exactly where you are.

Why DirectEnglish?

Millions of learners, struggle with traditional language courses that are rigid and impersonal. Here is what sets us apart:

- **Learn at your own pace:** No fixed schedules. Log in whenever and wherever suits you.
- **Expert-designed curriculum:** Every lesson is built by qualified English educators with real-world fluency in mind.
- **Interactive & engaging:** Activities, exercises, and instant feedback keeps you motivated.
- **Track every milestone:** See your growth clearly with progress tools that celebrate how far you have come.
- **Accessible to all learners:** Personalized settings and an intuitive interface make learning comfortable for everyone.

Before you begin

New to DirectEnglish? You can be up and running in just a few minutes. Before using the application, ensure that you have:

- A valid username and password.
- An active internet connection.
- A supported web browser.

You're all set! Your english journey begins now!

Overview of DirectEnglish

DirectEnglish (DE) is a web-based learning application designed to deliver structured educational content through an interactive and user-friendly interface.

The DE application enables learners to access courses, participate in learning activities, and stay informed about updates through a centralized system. It supports both individual learning and organizational training needs. The **purpose** of DE application is to provide easy access to learning resources and training modules. It provides real-time updates through events and notifications that support continuous learning in an online environment.

Key Features of DE Application are:

- **User-Friendly Interface** allows learners to easily navigate technical complexity.
- **Course Access** directly from the dashboard, enabling a seamless learning experience.
- **Current Events** section displays important updates, announcements and ongoing activities relevant to the learner.
- **Interactive Learning** through audio, video and text-based lessons.
- **Accessibility** feature supports diverse users by offering features that improve readability and usability.

The multiple types of learning content supported by DE

- *Video-based lessons*
- *Interactive modules*
- *Quizzes and assessments*

Overall, the DE application provides a centralized and efficient environment for digital learning, helping users to manage and complete their educational activities effectively.

Log in to DE application

Use your login credentials to log in to the DE application. You must receive your credentials from your center.

1. Open DirectEnglish application from any supported browser.
2. Enter your **Username** and **Password**.

**Note:**

You can choose to change your password from the [Edit profile \(on page 11\)](#) section.

3. Click **Sign in**.

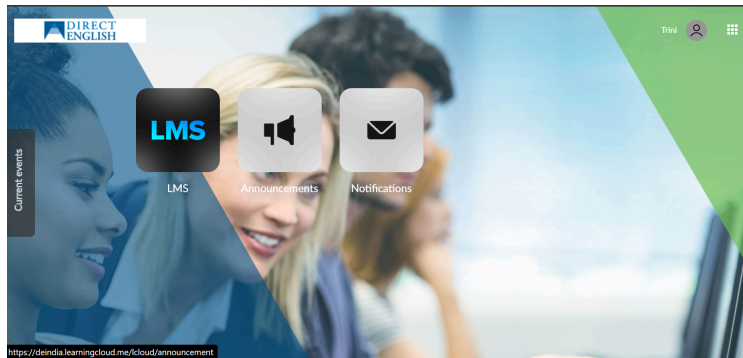

Troubleshooting:

If you have forgotten your password, select **Can't access your account?** and enter your username or email address. Follow the instructions sent to your email to recover access to your account.

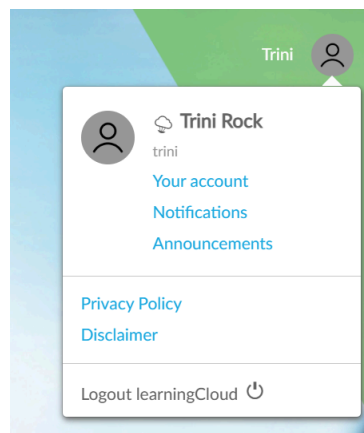

Chapter 2. User dashboard in DE application

The user dashboard is the main landing page of the DE application. It provides users with quick access to Learning Management System (LMS), announcements, notifications, account settings, and current events.

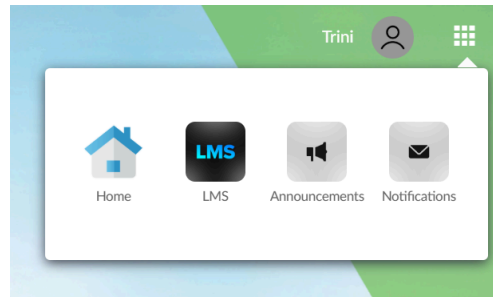

After logging in to the DE application, users are directed to the user dashboard which contains the following elements:

- **LMS** opens the Learning Management System where users can access courses and learning materials.
- **Announcements** displays important announcements and updates shared within the application.
- **Notifications** displays internal notifications and messages.
- **Current Events** displays recent or ongoing events related to the platform.
- **User Profile Menu** provides access to account-related options. For more information, refer the [user profile menu \(on page 8\)](#) section.

- **Grid Menu** provides quick access to key sections such as Home, LMS, Announcements and Notifications from a single menu.

User profile menu

The account options menu provides access to your account settings, notifications, announcements, privacy information, and logout options.

Option	Description	Function
Your account	Opens your account page.	Allows you to view and manage account details.
Notifications	Displays internal notifications.	Allows you to view updates and alerts.
Announcements	Displays announcements.	Allows you to view announcements.
Privacy Policy	Opens the privacy page.	Provides information about data usage and privacy practices.
Disclaimer	Opens the disclaimer page.	Provides legal and usage-related information.
Logout learningCloud	Signs you out of the application.	Ends the current session.

Managing Announcements

This task guides you to view and manage your announcements in the DE application.

1. Log in to your account.
2. Access the **Announcements**, by clicking on any of the following:

- a. User dashboard
- b. User Profile menu
- c. Grid menu

To locate them, refer the [user dashboard \(on page 7\)](#) section.

The announcement window is displayed.

3. Enter a keyword in the **Search** field to find a specific announcement.
4. Click the **Order-by** drop-down menu and select your preferred sorting option to organize the list of announcements.

Note:

If no announcements are available, the page displays **No result found**.

Chapter 3. Account Management in DE Application

The Account Management section in the DE application allows users to view and manage their personal account information, update account details, change passwords, and access authentication settings.

Account Management Features

The account management page contains the following features:

- Profile Information displays the user profile name and account status.
- Personal Information displays user details such as:
 - Username
 - E-mail Address
- **Edit Account** allows users to modify account-related information.
- **Change Password** allows users to update their account password for security purposes.
- Show More Information expands additional account-related details.
- Additional Information displays organizational or user-related information such as:
 - Area Developer
 - Assigned Center
- Groups tab displays user group associated with the account.
- Web Services Authentication provides authentication token options for connected web services.
Users can generate a new authentication token using the **Generate a New Token** option.

Edit User Profile

You can update your registration and personal information in the application to keep your profile accurate and up to date.

1. Log in to the application using your Username and Password.
2. Go to your profile  and click the **Your Account** option from the drop-down menu.
3. In the **Personal Informtion** section, click the **Edit account** for making changes in existing information.
4. Modify the required [user identity fields \(on page 11\)](#) under **Registration information** window.
5. Update the timezone and language details.

Fields	Descriptions
Timezone	Select the timezone you are in.
Language	Select your preferred language.

Fields	Descriptions
Country	Select your country from the list.

6. Review the **Additional information**.

Field	Descriptions
Area developer	Area developer assigned to your center.
Assigned center	Center you are assigned.

7. Update the **About me** and **Interest** in **Other information** section.

User identity fields description on the Registration Information form

The fields and description of the user identity fields that you can edit when you update your information.

Fields	Description
Username	It is a read-only field that displays username provided by your admin.
Name	Enter the name of the student.
Surname	Enter your surname.
Email	Enter your email id.
Office Phone	Enter your office phone number.
Mobile Phone	Enter your mobile phone number.
Location	Enter your location.

Changing password in DE application

You can update your account password to maintain account security and protect personal information.

1. Log in to your account.
2. Click the  (profile icon) and click the **Your Account** option from the drop down menu.
3. Click the **Change Password** option.
4. Enter your current password in the required field.

5. Enter your new password in the required field.
6. Re-enter the new password in the **Confirm New Password** field, for confirmation.
7. Click the **Save** button to apply the changes.

Important:

To unsave any changes, click the **Cancel** button.

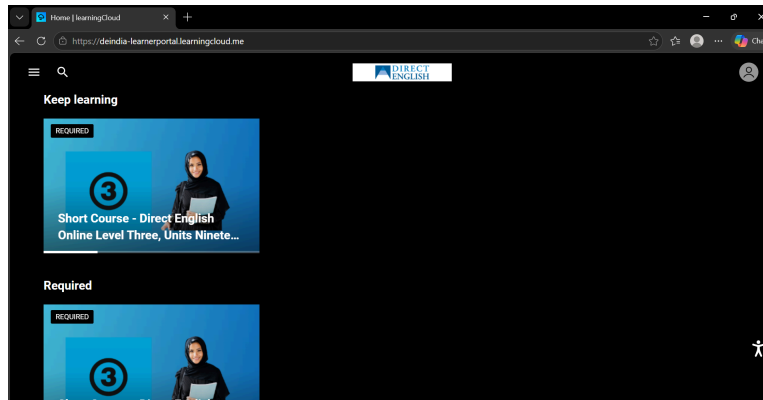

Viewing the Assigned Group

You can view the group that you are assigned to by your admin in the DE application.

1. Log in to your account.
2. Go to your profile  and click the **Your Account** option from the drop-down menu.
3. Click the **Group** option.
Your assigned group will be displayed.

Chapter 4. LMS dashboard in the DE application

The Learning Management System (LMS) dashboard is the main interface of the LMS cloud portal that allows learners to access and manage their online learning activities. It acts as a centralized platform where users can view assigned courses, continue learning sessions, and monitor their progress.

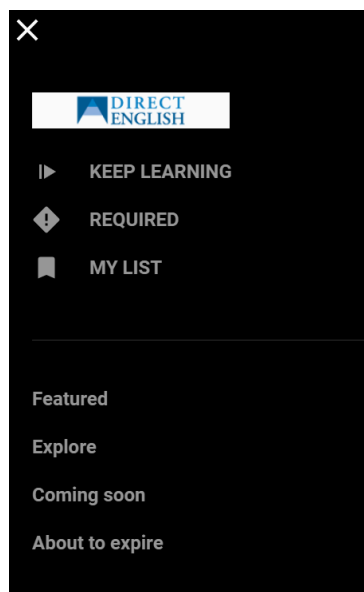

The LMS dashboard is designed to provide a simple, organized and user-friendly learning environment. It helps users to easily navigate through courses, learning materials, and portal features from one location.

The LMS dashboard also supports functions such as tracking, accessibility features, user profile management and quick navigation tools. It improves the learning experience by making online education more efficient and accesible for all users.

Dashboard Elements

The Navigation menu  opens the navigation panel.

- The **Keep Learning** option displays courses and lessons that are currently in progress.
- The **Required** option displays mandatory courses and lessons that are assigned to the users.
- The **My List** option enable users to bookmark courses and review them later.
- The **Featured** option highlights learning content recommended by the administrators.
- The **Explore** option provides access to additional courses and learning resources.
- The **Coming Soon** option displays upcoming courses and learning content.
- The **About to Expire** option displays courses or certifications that are about to expire.

The **Search** button  allows users to search for courses, lessons, or learning material.

The **User profile** icon  located at the top-right corner, provides access to user profile settings and account options.

The **Course Cards** help users access and navigate through their courses.

The **Accessibility icon**  found at the bottom-right corner helps users with special needs to access the application. For more information, refer the [accessibility feature \(on page 24\)](#) section.

The **Navigation Shortcuts**, located at the bottom of the dashboard, helps users gain quick access to the [learner profile \(on page 18\)](#) (through **Records** and **Awards** options), notifications, and the [user dashboard \(on page 7\)](#) (through **My Apps** option).

Navigating through the course

You can access and navigate through your assigned course on the DE application. Each course contains a sequence of units, and each unit contains lessons and activities.

1. Log in to your account.
2. Click the **LMS** option on the user dashboard.
3. Once you have entered into the LMS dashboard, locate your course under the **Keep Learning** or **Required** section and select it.

Note:

The **Keep Learning** section shows courses you have already started. The **Required** section shows the courses that have been assigned to you.

4. Click the **Resume** button on the selected course to continue where you left off.
5. In the course overview, review the list of units and the **Progress Test**.

**Important:**

Each unit and the progress test is listed as an **Interactive Activity**. Units must be completed in order. Complete each unit to unlock the next and the **Progress Test** in sequence.

6. Click an available unit to open it.

**Note:**

The unit launches in a full screen player. The unit menu is displayed on the screen, showing all available sections for the unit.

7. Click on a lesson, and within a lesson, use the **Next** and **Previous** buttons at the bottom of the page to move between pages of content.

**Tip:**

Click the  (navigation menu) at the top-left corner of the player to expand or collapse the unit menu at any time.

8. To close the unit player, and return to the course overview, click the  (close button) at the top right corner of the player.

Accessing and using Writing Practice

Access Writing Practice activities to complete written tasks, receive grades, and review your responses.

1. Log in to your account.
2. Click the **LMS** option on the user dashboard.
3. Locate your course under the **Keep Learning** or **Required** section.
4. Click an available unit to open the course content.
5. Click the  (navigation menu) in the top left corner of the page.
6. Select **Writing Practice** from the navigation menu.
The writing practice activity is displayed.
7. Complete the writing activity by entering your answers in the available fields.

8. Click **Save** to save your responses after completing the activity.

Note:

To modify your saved responses, click the  (edit button), make the required changes, and then click save again. To clear your responses and start the activity again, click  (reset button).

9. Click the **Previous** button to leave the writing practice activity and return to the previous page.
10. Click the **Next** button to continue to the Self-test activity.

Your writing practice responses are saved. You can proceed to the **Self-Test** or return to the previous page.

Accessing and taking a Self Test

The Self Test feature enables you to take assessments and track your understanding of the course content.

1. Log in to your account.
2. Click the **LMS** option on the user dashboard.
3. Locate your course under the **Keep Learning** or **Required** option.
4. Click an available unit to open the course content.
5. Click the  (navigation menu) in the top-left corner of the page.
6. Select **Self Test** from the navigation menu.
The Self Test window is displayed.
7. Complete the test and click **Submit** to save your answers.

Note:

To clear your responses and start the test again, click  (reset button).

Your test answers are saved. You can return to the navigation menu by clicking the **Previous** button.

The New Vocabulary Feature

The New Vocabulary feature categorizes vocabulary introduced in each lesson of a unit.

Vocabulary Categories	Description
Verb	Lists action words.
Noun	Lists names of a person, place or thing.
Adjective	Lists descriptive words.
Preposition	Lists words that shows the position or relationship of a noun or pronoun with another word in a sentence.
Adverb	Lists words that modifies verb, adjective or other adverb.
Adverb and Adverb Phrases	Lists words that function as adverb phrases.
Quantity Words	Lists words that indicate amount.
Question Words	Lists words that ask questions.

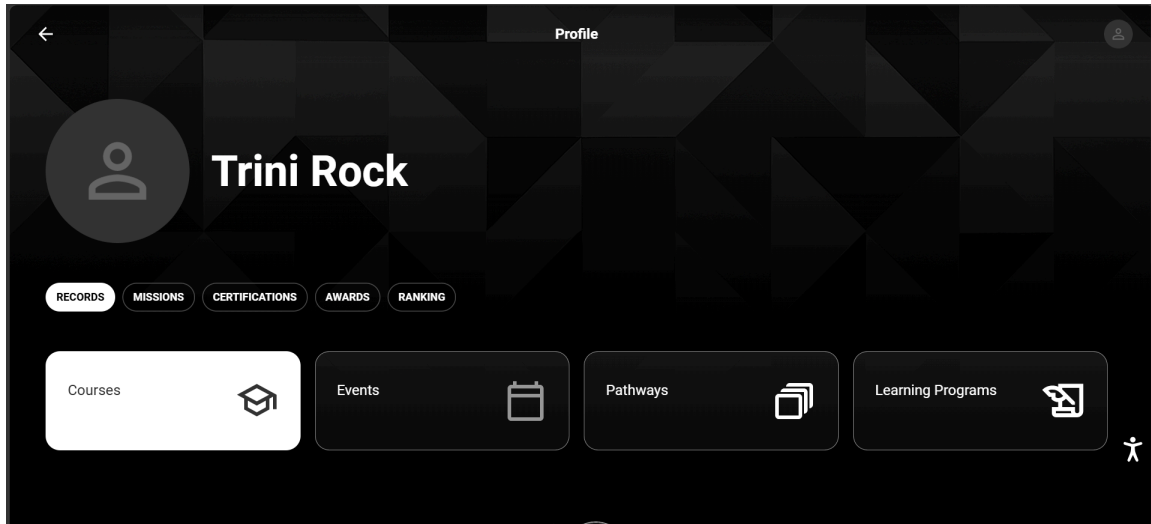

Bookmarking a course

The My List section in the DE application, allows you to bookmark a course of your choice.

1. Log in to your account.
2. Click the **LMS** option on the user dashboard.
3. Click the  (information button) found on the course card of the course you wish to bookmark.
4. Click the **Add to My List** option to bookmark the course.

Chapter 5. Learner profile dashboard in the DE application

The learner profile dashboard allows users to keep track of their progress, missions and achievements.

To access the learner profile dashboard in the DE application, refer the [accessing the learner profile \(on page 19\)](#) section.

Dashboard Elements

The **Records** option displays the courses, events, pathways, and learning programs associated with the user's account. For more information, refer the [records feature \(on page 20\)](#) section.

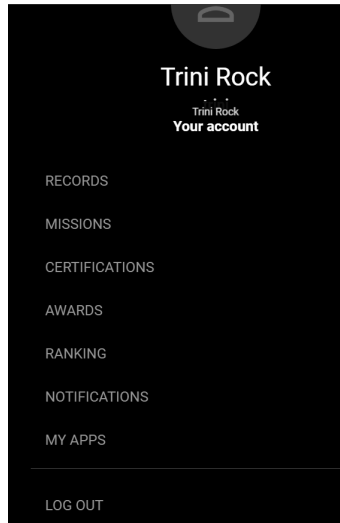

The **Missions** option displays the missions assigned to the user. For more information about filtering missions, refer the [managing missions \(on page 21\)](#) section.

The **Certifications** option displays the certifications earned by the user and provides access to certification details.

The **Awards** option displays the awards received by the user and allows the user to review achievements.

The **Ranking** option displays the user's current ranking and performance related information.

The Profile icon  opens the side panel.

The side panel allows the users to gain access to their records, missions, certifications, awards, and ranking. The **Notifications** option allows them view their notifications. The **My Apps** option takes them back to the user dashboard and the **Log Out** option allows them to log out of their account.

The Accessibility icon  provides access to the accessibility functions that support users with special needs. For more information about the available accessibility features, refer the [accessibility features \(on page 24\)](#) section.

Accessing the learner profile in DE application

You can access your learner profile in the DE application to view your learning records and achievements.

1. Log in to your account.
2. Click the **LMS** option on the user dashboard.
3. Click the  (profile icon) to open the profile menu.

The profile menu displays the following options:

- **Records**
- **Missions**
- **Certifications**
- **Awards**
- **Ranking**

4. Click any of the options to access the learner profile.

**Tip:**

Alternatively, you can click the **Records** or **Awards** button located at the bottom of the LMS dashboard to access the learner profile.

View Records

The Records feature helps you track and view information related to your courses, events, pathways, and learning programs within the DE application.

1. Log in to your account.
2. Click the **LMS** option on the user dashboard.
3. To access **Records**, click the Records option located at the bottom of the LMS dashboard (or) click the  (profile icon) located at the top right corner of the LMS dashboard and select Records.

The records page opens and displays the following categories:

- Courses
 - Events
 - Pathways
 - Learning Programs
4. Select a category to view its Records.

Features of Records

The Records page has features that allow you to review your learning history across courses, events, pathways, and learning progress.

Record Categories	Functions
Courses	Displays details related to your assigned and completed courses.
Events	Displays details of events assigned to you including your schedules, event durations, and participation information.

Record Categories	Functions
Pathways	Displays details of recommended learning paths, next-level progression and certification-related learning options.
Learning Programs	Displays details related to your assigned and completed learning programs.

View Missions

The Missions feature allows you to view your assigned missions.

1. Log in to your account.
2. Click the **LMS** option on the user dashboard.
3. To access **Missions**, click the  (profile icon) located at the top-right corner of the LMS dashboard and select Missions.

Note:

Missions are assigned based on the learners course progress and learning objectives. The missions displayed may vary for each user.

Managing Missions

The following table lists the available mission filter options and their functions.

Filter	Available options	Function
Participation Mode	Optional	Displays missions that are not required to complete.
	Mandatory	Displays missions that are required to complete.
Mission Categories	Search	Allows you to search and select available mission categories.
Public	Yes	Displays missions that are publicly visible.

Filter	Available options	Function
	No	Displays missions that are not publicly visible.

Filter Actions

The following table describes the action available for applying and clearing filters.

Action	Function
Apply Filters	Applies the selected filter criteria to the mission list.
Clear	Removes all selected filters and restores the default filter settings.

View Certifications

The Certification feature allows you to access and view your certificates.

1. Log in to your account.
2. Click the **LMS** option on the user dashboard.
3. To access **Certifications**, click the  (profile icon) located at the top-right corner of the LMS dashboard and select certifications.

Note:

Certificates are displayed based on the learners course progress and learning objectives. If no certificates are found, it shows **No results**.

View Awards

The Awards feature allows you to track the awards you have earned based on your course progress within the DE application.

1. Log in to your account.
2. Click the **LMS** option on the user dashboard.

3. To access **Awards**, click the Awards option located at the bottom of the LMS dashboard (or) click the  (profile icon) at the top-right corner of the LMS dashboard and select Awards.

**Note:**

Awards are granted based on the learner's performance. If no awards have been earned, the system displays **No results**.

View Ranking

The Ranking feature allows you to view your current position, points and performance compared with other learners within the DE application.

1. Log in to your account.
2. Click the **LMS** option on the user dashboard.
3. To access **Ranking**, click the  (profile icon) located at the top-right corner of the LMS dashboard and select Ranking.

The Ranking page opens and displays the following information:

- Your current rank
- Total points earned
- Leaderboard position
- Performance compared with other learners

Chapter 6. Accessibility feature available in DE application

The DE application is designed to support inclusive learning by providing accessibility features that helps users with different needs navigate and use the application comfortably.

Accessibility Profile

Figure 1. Accessibility Icon

The accessibility features in the DE application include accessibility profile such as:

Accessibility Profile	Key Settings	Purpose
Blindness	• Screen Reader Adjustment	Supports screen reader accessibility.
Motor Skills Disorder	• Keyboard Navigation • Smart Navigation • Voice commands	Supports alternative navigation methods.
Color Blindness	• Monochrome • Bright High Contrast • Contrast Mode • Low Saturation • Dark High Contrast • High Saturation	Improves color perception and content visibility.
Visually Impaired	• Screen Reader Adjustment • Image Description • Magnifier • Readable Font • Highlight Links • Highlight Headers	Enhances readability and visual accessibility.

Accessibility Profile	Key Settings	Purpose
	• Text Magnifier • Bright High Contrast • Contrast Mode • Low Saturation • Dark High Contrast • High Saturation	
Epilepsy	• Blinks Blocking • Low Saturation	Reduces flashing effects and visual triggers.
ADHD	• Image Description • Read Focus • Reading Guide • Dictionary	Improves focus and reading comprehension.
Learning	• Reading Guide • Highlight Links • Highlight Headers	Supports content navigation and reading.
Elder	• Text Reader • Dictionary • Text Magnifier • Magnifier • Read Focus • Reading Guide	Improves readability and navigation.
Dyslexia	• Dictionary • Image Description • Reading Guide	Supports reader comprehension and content accessibility.

Accessibility Profile	Key Settings	Purpose
Make the Website WCAG Compliant	• Dark High Contrast • Screen Reader Adjustment • Blinks Blocking	Applies settings that help improve compliance with WCAG accessibility guidelines.

You can choose to enable or disable the profile options based on your needs.

Other accessibility features include screen-reader support, adjustable text visibility support, and user-friendly layouts to ensure a smooth and engaging learning experiences for all users.

Navigation Adjustment

The **Navigation Adjustment** feature enhances user interaction and improve usability for individual with visual, motor, and auditory assistance through accessibility tools such as:

Navigation Tools	Description
Screen Reader Adjustment	Enhances compatibility for visually impaired users.
Keyboard Navigation	Facilitates keyboard-based navigation instead of mouse for user with motor impairments.
Smart Navigation	Provides intelligent navigation system to simplify movement for the beginners.
Text Reader	Converts written text into spoken audio for user with dyslexia.
Voice Commands	Allows users with physical disabilities to control the interface using voice commands.

Color Adjustment

The **Color Adjustment** feature helps the users change screen color for better visibility and comfortable reading. It is useful for users with visual difficulties or sensitivity to bright colors. This feature allows users to customize the appearance of the screen according to their needs and improve their learning experience.

The color adjustment feature has different settings such as:

Color Adjustment Setting	Description
Monochrome	Changes the display to black and white.
Dark High-Contrast	Uses a dark background with bright text.
Bright High-Contrast	Uses a bright background with dark text.
Low Saturation	Reduces strong colors and creates a softer display.
High Saturation	Makes colors brighter and more vivid.
Contrast Mode	Increases the difference between text and background.
Custom Color	Allows users to select their own preferred colors.

Content Adjustment

The **Content Adjustment** feature helps users customize content for easier reading, better focus, and improved accessibility. It has the following settings that improve readability for users with visual or learning disabilities.

Using the **Font Sizing** option, users can adjust font size, line, word and letter spacing to improve readability. Using the **Cursor** option, users can enlarge the cursor and change its color to white or black, to make it easier to see while navigating the app.

The content adjustment feature provides reading and focus tools, to help users read and stay focused.

Reading and Focus Tools	Description
Blinks Blocking	Stops distracting animated or blinking content.
Magnifier	Enlarges parts of screen for better visibility.
Readable Font	Changes text to a dyslexia-friendly font.
Text Magnifier	Enlarges text when users hover over it.
Read Focus	Highlights the active reading line.
Reading Guide	Displays a guide bar to help track text while reading.

The content adjustment feature also provides navigation tools, to help users identify and interact with page elements more easily.

Navigation tools	Description
Image Description	Displays alternative text for images.
Highlight Links	Makes hyperlinks easier to identify.
Highlight Headers	Highlights heading elements on the page.
Dictionary	Allows users to look up word meanings instantly.
Virtual Keyboard	Provides an on-screen keyboard for typing.

Accessing and using the Accessibility feature

This task explains how to access and configure accessibility features within the DE application.

1. Log in to your account.
2. Click the **LMS** option on the user dashboard.
3. Click the  (accessibility icon) located at the right side of the LMS dashboard.
The accessibility window is displayed.
4. Select one of the following options based on your accessibility needs:
 - **Accessibility Profiles**
 - **Navigation Adjustment**
 - **Color Adjustment**
 - **Content Adjustment**
5. Click the  (plus button) next to an option to expand and customize its settings.

Note:

Click the  (minus button) to remove the settings from view.

Accessibility settings

The accessibility feature provides you with settings that include language preferences, icon visibility, and enabling or disabling the accessibility functions.

Settings	Description
Expand 	Expands the accessibility menu.

Settings	Description
Hide 	Allows you to set how long the accessibility icon remains hidden.
Language Selector 	Allows you to choose your preferred language.
Turn Off	Disables all accessibility functions.
